

Professional Diploma in Commercial Web Design

Lesson 10

MySQL

By Raymond Tsang in Fevaworks

Products

Download from share

- products.css
- products.sql
- db.inc.php
- sms_read.php
- sms_readall.php
- images folder

Readall

- Open sms_readall.php. Save as products_readall.php
- Ctrl+F replace **sms** to **products**
- Remove **Create** link
- Remove **Update** and **Delete** column

Layout

- Attach the products.css
- `div.products_list>div.product>div.product_image+div.product_name+div.product_price`

PHP

- Move PHP code outside **div.product**.
- `<?php`
- `foreach($recordset as $record){`
- `?>`
- `[...]`
- `<?php } ?>`

Image

- ``
- Move `<?php echo $record['image']; ?>` inside **src**
- `width="100" height="100"`

Dollar sign

- Add a dollar sign before the price.

Link

- Move link HTML code outside **div.product**.
- `<a href="products_read.php?id=<?php echo $record['id']; ?>">`

Read

- Open sms_read.php. Save as products_read.php
- Ctrl+F replace **sms** to **products**

Add fields

- `<tr>`
- `<td>name</td>`
- `<td><?php echo $record['name']; ?></td>`
- `</tr>`
